

Old Timers at S.A.M. 27 TOFFF

Thursday April 30, 2026—Perfect flying conditions brought out about 15 members. Happily, seven of those fellows showed up with SAM legal planes. Bill Fry's lazy Bee is not a SAM design but it's from Clancy Aviation so I couldn't resist. The photos are self explanatory. The usual group of members were there flying their

chairs. There were no free flighters as the field was too muddy. Also present were the usual group of pilots flying non-SAM models. As SAM Western V.P. it is part of my job to encourage these pilots to fly SAM old timers. Build them, borrow them, buy them but please help keep SAM alive. It's ok to fly sport planes as well.
