Karl:

*Letter from Park Abbot*

Can you beat that. Before the SAM Champs I took several chances on a SAM raffle and wouldn't you know it ...I won. The other day UPS delivered a carton and inside was a near-new Super Cyclone mailed by Jim Adams. No note or anything came with it. I couldn't figure why Jim sent it to me so I dropped him a letter and he said it was a raffle prize.....how about that. !

The engine is in near new shape with everything intact and ready to run. Whoever had it before kept it in VERY NICE condition...including an original Champion plug. Thought you might like to know....just a little news item. Hope you have a nice quiet Christmas and a good New Year.

Regards,

*Park*

Engines for Sale:

OS 35 convt (77 Prods.) K&B NVA, pressurized, VG	\$90
OS 30 convt (77 Prods.) K&B NVA, pressurized, VG	\$90

3 AC 3G glow plugs, NIB.	\$10 each
2 Arden glow plugs, E-8002-S, NIB.	\$15 each

LETTERS TO SAM:

Dear SAM,

I thought I'd heard it all, but I guess not. I only recently discovered the fact that many chauvinist pigs in your organization have Playboy Cabins and have indulged in this degrading practice since the late '30's. Worse, I was told that some neanderthal named Pond sells plans so your members may construct their own to enter in some kind of sick competition you have. This is totally disgusting and obviously degrading to women everywhere. I can't imagine where you find occupants for these dens of iniquity or what kind of revolting rituals you practice in them - but we are putting you on notice that we won't put up with it. We will picket you, harass you and file litigation in the courts of this glorious land to put a stop to it. So justquit it!

Emily Latella, NOW

Dear Emily,  
Oh, shut up.

Dear SAM,  
What kind of kinky idiots would be interested in antique models - I mean like who'd want to fool around with Christy Brinkley or Cheryl Tiggs when they're 65? For my money, you're all a bunch of sickos!

Ima Prune

Dear Ima,  
FOO-2-U

Dear SAM,  
How in God's name can there ever be peace in the world as long as your kind exist? It has come to our attention recently that many of your members have armed themselves with some kind of remote controlled weapon called the LANZO BOMBER. Recently, many of you gathered at a remote dry lake in Nevada to test these things. You may rest assured that our organization will react strongly to this threat to world peace! We don't want our children growing up in a world gone amuck with warmongers such as yourselves, flying these hideous things at will. If you would all stop eating red meat, maybe you could learn to live in harmony. We have many dedicated humanists who have lain in front munitions trains and gateways to nuclear plants, so one of your LANZO BOMBERS will not deter us!

Greenpeace

Dear Greenpeace,  
FOO-2-U-2 (and thank you for not smoking).
