Ron and I had just gotten back from fishing, (no fish) and Ron was to give you a call, then by the time I got home he got in touch with you and told me about your SAM 27 history search. Before I get into that I'd like to say again how much I love SAM Speaks, and the SAM 27 N/L with you at the Editors Helm. Great Stuff!!! I wish I could get into my uniform. But, I need about three inches from button to hole on the blouse, and we just won't discuss the pants.

Dee and I shop at Beal AFB each month, and while we were there this month I picked you up this little token for looking so dapper in your uniform. I want to see this on your flight jacket at this years Crash & Bash.

I joined SAM 27 in 83, and I think Ron Keil was Pres. Someone else will have to come up with 84, but in 85 I was Pres., Secretary/Treasurer, and Newsletter Editor. Ron Keil was the V.P.

The letter head I'm typing this letter on is from the year 1986, with our mad russian at the controls. God Bless his soul.

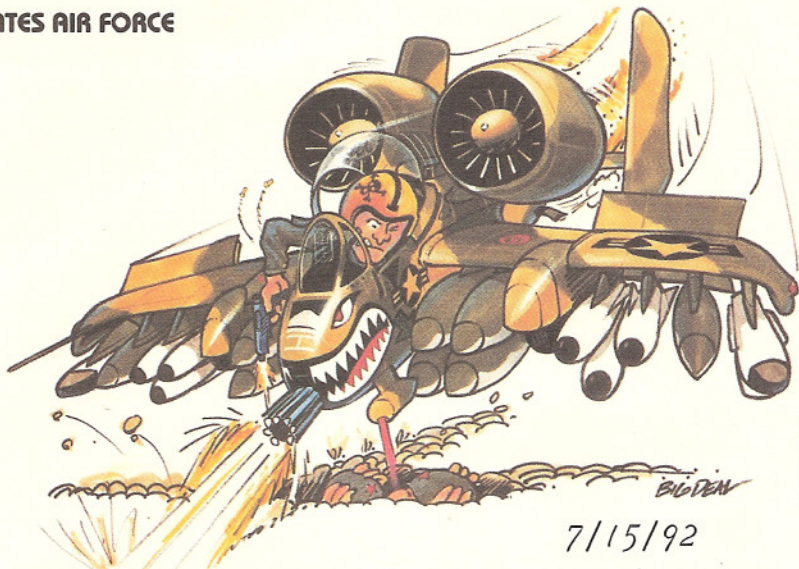

In 1987 I dropped out of SAM 27 and went on the road with the Russ Morgan Orchestra. In 1988 I was with the Gene Krupa band, then I hung up my horns and moved to Clearlake. In 1989 Dee and I put together SAM 74, and there you are.

I'm going to send a copy of this to Ron so he will know where to add and fill in the gaps.

Got to run, my SAM Speaks just arrived, and I'm going to sit right here under my air conditioner and enjoy it.

I thought I should send you along a copy of the letter I wrote Don, and then you could think of the things you wanted to say after you Ed and me get together. That patch I bought Don at the Base the other day was burning a hole in my top drawer chest of drawers.

Be sure you give me a call when you want to get together.
