#### Show & Tell

Ed Hamler – Benny Boxcar – Park Abbot had built the first one in the club. It was crashed and remains were brought to a meeting and someone was going to rebuild it but it disappeared. Ed built one for Gabriele Montebelli. Don Bekins flew it in June and lost radio and crashed it. Ed was given a partially finished Benny Boxcar. Ed will have it finished for Gabriele to fly it at the SAM Champs. ED had the fuselage almost ready to finish. Ed is also installing a electronic switch so it cannot be started with the radio off.
