Technical Discussions:

There are many technical tidbits in almost all of the Antique Flyer issues. The ones listed below are just a few of the larger articles.

#101 Torque Meter, Covering with silk

#102 Covering with silk

#109 Balsa Stripper, Silk covering & Finishing II

#110 Balsa Stripper drawing, Silk covering & finishing III

#111 Silk covering & finishing IV

#112 Silk covering & finishing V

#114 Silk covering & finishing VI

#126 1/2A Texaco

#127 Servo connectors, Frequency alert

#128 Ohlson tuning tip

#131 Rubber torque, The OOS menace, 1/2A Texaco engine

#137 1/2A Tuning tip, Rubber motors TAN II

#134 How to fold a prop properly

#142 O & R Tuning Tip #17

- #143 Free flight trimming, A bizarre trimming Technique
- #146 Making your .049 a consistent runner
- #149 Lightspan
- #151 Gas formulas & tests
- #153 More on gas
- #155 Polyspan
- #157 Electric Old Timers, Trimming a powered
- #161 Fuel cutoff timer, Simple fuel shutoff, Standard drill sizes chart
- #164 Lift, Rubber stuffer, Prop carving
- #167 Vacuum forming
- #169 Wood joinery
- #179 Plug & Molds
- #174 Sparkplugs & Coils
- #176 Free flight trimming
- #186 NiCd batteries
- #192 Samspar
- #196 Syringe fuel tank
- #207/208 Covering & Finishing
- #238 OT Rubber
- #264 Rigidity vs. Flexibility, Using Samspar
- #267 The Invisible disc (props)
- #269 Catching thermals
- #145 Make a fuel tank for an O.R. .23
- #148 Schematic, transistor ignition system
- #150 Making decals
- #152 Lightspan, Airspan, & Fibafilm, UHU Glue – Laminations
- #156 Plugs & Molds, Freewheeling props, Carving props
- #160 Wing Tips
- #162 Jimmy Allen, Model trimming
- #165 Anodize aluminum, Color your clear dope, Paint brush tips, Making decals
- #168 Restoring old engines
- #177 Making a laminated prop, Automatic Electric starter
- #170 Plugs & Molds
